

Product Details

GD164 Bell Trapped Body

Technical Data

Dimensions:

265 dia. body
304 - Height below Body Flange
-30 to 10 - add to overall grating/cover height for min/max height between body flange and FFL

Connection - 4" BS437 (100mm) / Harmer SML

Free Area - 78cm²

Materials - Cast iron, lacquered

Weight - 17.3 kg

Note: Membrane clamping collar C.D also required if using with a Vari-Level top (C.M1 with Multi-Level). (priced separately from body)

General Description:

Cast Iron GD series Vari-Level Bell Trapped Body (with Optional Side Inlets), with 117 dia. vertical outlet. GD Series Vari-Level bell-trapped gullies with 50mm seal, enable full bore access to pipework.

Options:

To specify an option, add option letter(s) as a suffix to the Spec. Code

W - weepholes (provide supplementary drainage at membrane level) - add suffix "W" to membrane clamping collar spec. code

Materials:

Cast Iron - BS EN 1561: Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
