#### **Product Details**

### L3192 Grating

#### **Dimensions:**

200 square at finish level 10 - grating aperture width 77 - Overall Height Connection - 110mm Plastic, 100mm DIN19522 / 4" BS416 /

Harmer SML

Free Area - 85cm<sup>2</sup>

Materials - Stainless steel

**Load Rating Class** - K3 **Weight** - 2.5 kg

### **General Description:**

200 Square Stainless Steel Direct Connection Grating, for use with tiles, marble, terrazzo, resin etc. flooring (Perforated grating), with 110.2 dia. vertical outlet with 10mm grating aperture width. For use in high specification applications including food preparation, prison cells, showers and areas where high corrosion resistance is a requirement.

#### **Options:**

To specify an option, add option letter(s) as a suffix to the Spec. Code

H - fitted with Pin Torx screws for security applications

P - has a polished finish

## Materials:

Stainless Steel - Austenitic Grade 304 (Grade 316 optional on most products): Used for bodies, gratings, funnels, access covers, filter buckets and fixings. A corrosion-resistant metal containing significant amounts of nickel and chromium; AISI grade 304 stainless steel is used as standard, which is suitable for general use in and around buildings including most coastal locations. In applications such as swimming pools or having an aggressive atmosphere, grade 316 is recommended and is available optionally (if available, code 'M' will be listed under 'Options'). An even higher grade may be required for applications in highly corrosive environments including where exposure to seawater may be anticipated. Clean with soap and warm water rinse and wipe dry. Gratings may also be cleaned in certain dishwashers. Under no circumstances treat with metal scouring pads, metal scrapers or wire wool as these will contaminate surfaces leaving rust spots. Take care to cover stainless steel items when site work is going on, to avoid contamination with rust-inducing particles such as when mild steel or cast iron items are being cut.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
