

Product Details

SN23930 Channel Grating

Technical Data

150 x 500 overall size 15 - grating aperture width 15 - Depth Free Area - 475 per metre Materials - Nickel bronze Load Rating Class - A15 Weight - 3.1 kg

General Description:

150 wide x 500 long Nickel Bronze Floral Channel Grating with 15mm grating aperture width . Durable high quality gratings particularly suited to areas subject to high volume of pedestrian traffic. CE marked and type tested to BS EN 1433.

Options:

To specify an option, add option $\mathsf{letter}(s)$ as a suffix to the Spec. Code L - secured grating

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain.Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
