K5401 Access Cover

Technical Data

**Dimensions:**

155 dia. at finish level

54 - Overall Height

Connection - 4" NPSM Vari-Level thread

Materials - Nickel bronze

Load Rating Class - L15

Weight - 2.2 kg

General Description:

155 Dia. Nickel Bronze Vari-Level Access Cover, for use with tiles, marble, terrazzo, resin etc. flooring (Plug with 'O' ring seal for use in plunge + foot baths), with 4" NPSM dia. vertical outlet. Durable, superbly finished items particularly suited to a high volume of pedestrian traffic.

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain. **Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.**

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
