K5491 Access Cover

Technical Data

Dimensions:

155 dia. at finish level

54 - Overall Height

Connection - 110mm Plastic, 100mm DIN19522 / 4" BS416 / Harmer SML

Materials - Nickel bronze

Load Rating Class - L15

Weight - 2.2 kg

General Description:

155 Dia. Nickel Bronze Direct Connection Access Cover, for use with tiles, marble, terrazzo, resin etc. flooring (Plug with 'O' ring seal for use in plunge + foot baths), with 110.2 dia. vertical outlet. Durable, superbly finished items particularly suited to a high volume of pedestrian traffic.

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain. **Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.**

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
