L3001 Grating

Technical Data

Dimensions:

161 square at finish level

7 - grating aperture width

54 - Overall Height

54 to 54 - Overall Height

Connection - 4" NPSM Vari-Level thread

Free Area - 92cm²

Materials - Nickel bronze

Load Rating Class - L15

Weight - 2.3 kg

General Description:

161 Square Nickel Bronze Vari-Level Grating, for use with tiles, marble, terrazzo, resin etc. flooring (Square hinged grating), with 4" NPSM dia. vertical outlet with 7mm grating aperture width. Durable, superbly finished items particularly suited to a high volume of pedestrian traffic.

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain. **Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.**

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
