

Product Details

L3091 Grating

Technical Data

Dimensions:

161 square at finish level
7 - grating aperture width
60 - Overall Height

Connection - 110mm Plastic, 100mm DIN19522 / 4" BS416 / Harmer SML

Free Area - 92cm²

Materials - Nickel bronze

Load Rating Class - L15

Weight - 2.3 kg

General Description:

161 Square Nickel Bronze Direct Connection Grating, for use with tiles, marble, terrazzo, resin etc. flooring (Square hinged grating), with 110.2 dia. vertical outlet with 7mm grating aperture width. Durable, superbly finished items particularly suited to a high volume of pedestrian traffic.

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain. **Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.**

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
