

Product Details

T1301 Gully Adaptor

Technical Data

Dimensions:

150 square overall size

30 - Overall Height

Connection - 150mm square top proprietary Clay or PVC gully body

Materials - Cast iron, lacquered

Weight - 1 kg

General Description:

Cast Iron T series Vari-Level Gully Adaptor (For use with 4" throat Vari-Level Grating / Cover). To connect Vari-Level grating to proprietary clay or PVC body. Increased range of height adjustability is obtainable by reversing the adaptor.

Materials:

Cast Iron - BS EN 1561: Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
