

## Product Details

### T1603 Adaptor

### Technical Data

#### Dimensions:

160 x 112 overall size

56 - Overall Height

**Connection** - 75mm DIN19522 / Harmer SML

**Materials** - Cast iron, Neoprene

**Weight** - 1.1 kg

#### General Description:

Cast Iron T series Pipework Adaptor. MJ coupling 75mm BS 416 to 75mm Ensign

#### Materials:

**Cast Iron - BS EN 1561:** Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidisation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
