

Product Details

U601 Bolt-on Funnel

Technical Data

Dimensions:

85 x 225 overall size

96 - Overall Height

Materials - Nickel bronze

Weight - 2 kg

General Description:

Nickel Bronze General Purpose Bolt-on Funnel (To take multiple indirect waste pipes; (for use with gratings. min. 150 mm dia. / sq)). Bolt-on funnels are for use with any grating, and are for applications where provision for indirect waste or condensate drainage is required in addition to floor drainage.

Materials:

Nickel Bronze - BS EN 1982: Used with satin finish for gratings, funnels and access covers. A cast alloy with a fine grain effect which blends well with most floor finishes. The satin finish is generally maintained by the slight abrasive action of passing traffic. In unused areas the material will gradually tarnish. To restore lustre, apply a plain nylon scouring pad (not soap-filled) in the direction of grain. **Note: Avoid covering nickel bronze items with plastic sheeting after installation, otherwise blackening may occur.**

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
