

## Product Details

### U602 Bolt-on Funnel

### Technical Data

#### Dimensions:

85 x 225 overall size

96 - Overall Height

**Materials** - Cast iron, sherardized

**Weight** - 2.2 kg

#### General Description:

Cast Iron General Purpose Bolt-on Funnel (To take multiple indirect waste pipes; ( for use with gratings. min. 150 mm dia. / sq )), Bolt-on funnels are for use with any grating, and are for applications where provision for indirect waste or condensate drainage is required in addition to floor drainage.

#### Materials:

**Cast Iron - BS EN 1561:** Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
