

**Product Details**

**WG502 Extension**

**Technical Data**

**Dimensions:**

224 dia. overall size

35 - Overall Height

35 to 35 - min/max height increase

**Materials** - Cast iron, lacquered

**Weight** - 1.5 kg

**General Description:**

Cast Iron 3410 series (Medium Sump) Extension (For use with WD2 to WD7 roof outlets). Used to raise the height of a grating above a body. (Inverted roof only).

**Materials:**

**Cast Iron - BS EN 1561:** Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
