

Product Details

P901 Perforated Standpipe

Technical Data

Dimensions:

104 dia. at finish level
200 - Overall Height
200 to 1500 - available height range specify in 10mm increments

Connection - 4" NPSM Vari-Level thread

Materials - Dome - copper; Standpipe - PVC

Weight - 0.7 kg

General Description:

Planting Area / Roof Garden Perforated Standpipe (For applications where the standpipe is concealed by soil. Dome is removable for access purposes) , with 4" NPSM dia. vertical outlet. Provides drainage of moisture in planting areas and flower boxes, minimising loss of soil.

Materials:

Copper: Used for dome. Corrosion resistant decorative metal that will, over time, acquire a characteristic green patina.

PVC: Used for standpipe and selected pipework adaptors. A cost effective, fire resistant material.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
