

Product Details

T603 Adaptor

Technical Data

Dimensions:

160 dia. overall size

131 - Overall Height

Connection - 100mm cast iron pipe caulk joint (4")

Materials - Cast iron, lacquered

Weight - 3.2 kg

General Description:

Cast Iron T series Pipework Adaptor, with 4" BSP inlet and 100mm caulk dia. outlet. Hub adaptor for caulk joint

Materials:

Cast Iron - BS EN 1561: Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidisation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
