

**Product Details**

**U903 Deep Seal 'P' Trap**

**Technical Data**

**Dimensions:**

270 x 116 overall size

318 - Overall Height

**Connection** - female 3" BSP threaded connection (75mm)

**Materials** - Cast iron, lacquered

**Weight** - 11 kg

**General Description:**

Cast Iron General Purpose Deep Seal 'P' Trap (125mm water seal), with 3" BSP dia. outlet.

**Materials:**

**Cast Iron - BS EN 1561:** Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidisation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
