

Product Details

U904 Deep Seal 'P' Trap

Technical Data

Dimensions:

324 x 141 overall size

379 - Overall Height

Connection - female 4" BSP threaded connection (100mm)

Materials - Cast iron, lacquered

Weight - 15.2 kg

General Description:

Cast Iron General Purpose Deep Seal 'P' Trap (132mm water seal), with 4" BSP dia. outlet.

Materials:

Cast Iron - BS EN 1561: Used for bodies, membrane clamping collars, spigot adaptors and accessories such as extensions. A widely used metal in the drainage industry, its resistance to corrosion permits extended use under extreme conditions. Castings are coated with a high grade lacquer paint to provide internal and external surface coverage. Paint will gradually wear off and is replaceable; oxidisation (surface rusting) is a natural process which does not weaken the material. A zinc anti-corrosion coating is applied to certain castings by sherardizing.

All dimensions are in millimetres unless stated. In line with general practice all dimensions shown are nominal.
